

THE NEW WATERSPORT SENSATION

Wingfoiling is the new, exciting and fun way to ride on water combining the best of surfing, kitesurfing and windsurfing. Wingfoiling is the hottest development in watersports since the introduction of kitesurfing.

A wing which resembles a windsurf sail is handheld and used to generate power to propel a sailor standing on a board with a hydrofoil underneath. When the wing is positioned to generate power, the hydrofoil "lifts" the sailor and board above the water giving an effect of flying across the water.

Witness the explosive progression of wingfoiling as the world's best riders compete for the GWA Wingfoil World Championship titles at events all over the world in 2025.

Wingfoiling's emphatic growth is not only fuelled by the inescapable sense of freedom that it offers participants of all ages, but also thanks to the relentless, radical riding development by the sport's elite. These are the golden days of evolution, from the entry level to trophy holders.

The GWA Wingfoil World Tour organizes the best annual global wingfoiling events with the world's best riders in the disciplines Surf-Freestyle, Wave, Big Air and FreeFly-Slalom.

The Wingfoil World Tour travels to many amazing locations around the globe providing fresh, dynamic action and unforgettable content. As wingfoiling works with less wind than kitesurfing or windsurfing, events can also be held in major cities.

The GWA Wingfoil World Tour is sanctioned by World Sailing and crowns the official World Champions in wingfoiling.
