E-SPORTS LEAGUES RACER LEAGUE

The Racing Unleashed Competition consists of two leagues: The **Challenger League** and the **Racer League**.

While in the Challenger League, amateurs are battling for their title (level 2 with driving aids), the Racer League is where the pro drivers meet. They compete on the highest difficulty level (level 4). This means that they drive without any driving aids such as ABS or traction control.

In 2021, the produced programs will feature the **Racer League** with best of qualification, course presentation, driver profiles and a full action-packed race summary.
