PROGRAMME OFFER

Wingfoiling is the new, exciting and fun way to ride on water combining the best of surfing and windsurfing. Wingfoiling is probably the hottest development in watersports since kitesurfing back in the 90's.

A wing which resembles a windsurf sail is handheld and used to generate power to propel a sailor standing on a board with a hydrofoil underneath. When the wing is positioned to generate power, the hydrofoil "lifts" the sailor and board above the water giving an effect of flying across the water.

The Global Wingsports Association (GWA) has been founded in 2020 to develop the wingfoil sport and has organized the first international competitions in Fortaleza, Brazil and Tarifa, Spain in the same year.

Now, the GWA Wingfoil World Tour organizes the best annual global wingfoiling events with the world's best riders in the disciplines Race and Surf-Freestyle.

The Wingfoil World Tour travels to many amazing locations around the globe providing fresh, dynamic action and unforgettable content. As wingfoiling works with less wind than kitesurfing or windsurfing, events can also be held in major cities.
